Community Speedwatch

CSW initiative is designed to help manage and reduced speeding in our area. By using speed detection equipment at the roadside, volunteers like you can play a crucial role in making our streets safer.

How It Works -

- Volunteers are trained and supported by the Police Community Support Officers (PCSOs).
- You'll use a speed gun to monitor traffic speeds.
- Vehicle details of those exceeding the speed limit are recorded.
- Drivers of speeding vehicles receive warning letters.

Get Involved -

If you're interested in becoming a volunteer and making a difference in our community, please email me your emails – michelle.gillett@cheshire.police.uk

Community Notice: Criminal Damage in WEAVERHAM

We are aware of a recent spate of criminal damage to vehicles and incidents where recycling bins or other bins have been tipped over, spilling contents onto the floor. Most incidents have occurred on WEDNESDAY evenings, after residents have put their bins out for collection which have been reported to the WEAVER and CUDDINGTON Beat Team. If you have any information that could help with investigations, please contact the police on 101, quoting IML1946904. As a community, we ask you to be extra vigilant, particularly on WEDNESDAY evenings. Let's work together to keep our neighbourhood safe.

Mischief Night was relatively controlled, but Halloween itself saw a spike in anti-social behaviour (ASB) in Cuddington and Weaverham. Officers will work with local schools to identify those involved as a preventive measure to discourage further incidents.

Unfortunately, we have received another 2 reports over the Halloween period for vehicles being damaged. Please rest assured, we are fully committed to identifying those responsible and addressing this issue. If you or anyone you know has information about these incidents, please consider sharing it with us. You can report anonymously via Crimestoppers, helping us keep the community safe without revealing your identity. Every bit of information counts and can make a difference. Thank you for your continued support and vigilance. [Giving information anonymously | Crimestoppers](#)

SAFEGUARDING

The Herbert Protocol is a safeguarding measure designed to help locate and protect vulnerable individuals, particularly those with dementia, in the event they go missing. It involves gathering detailed personal information, including medical history, a photograph, and details of places the person may be familiar with, to assist the police and community in finding them quickly and safely.

This proactive approach can be crucial in ensuring the safety and well being of those living with dementia.

If you know someone who could benefit from having a Herbert Protocol form completed, especially if they are living with dementia or another condition that makes them vulnerable to going missing, contact your PCSO for assistance to complete -

Did you see the recent alert sent by our Crime Prevention Team? The alert included lots of advice about personal safety, which I have summarised below:

1. When going out you should always plan how you are going to get home.
2. Prepare for your day before you leave and consider what you might need. Phone, money etc.
3. Update someone on your plans and always make sure someone is aware of where you are.
4. Plan your journey. Google street view is useful for identifying places in an unknown area before you set off.
5. When it gets dark, keep to busy, well-lit streets, walkways and paths.
6. Be aware when using cash point machines. If there are signs of tampering or people acting suspiciously, do not use it.
7. Try not to keep all your valuables in one place.

8. Only take licensed taxis or minicabs booked by phone or a mobile phone app.
9. Installing an app such as [Hollie Guard – Personal Safety App](#) on your smart phone or consider carrying a personal alarm.
10. Confidence - you are less likely to be targeted if you look confident.

If you haven't already, please share this or the crime prevention alert with friends, family, and neighbours. As always, thanks for your continued support.

FRAUD

Please remember, the police will never ask you for any financial or private information. If you receive contact from someone claiming to be a police officer and they request this type of information, it is a scam. Do not provide any personal details. Instead, report the incident by calling 101. Stay vigilant and protect yourself from fraud. For more information -
